Tip of the Week – Preventing Risk

CASE STUDY #19 PaSea H.EL.M.E.T. Marine Risk Assessment

RISK ELEMENT: Marking & Identification of LSA & FFE

MRA FINDING: Several IMO fire control posters contained previous resolutions

REF. SOLAS II-2/15.2.4, III/20.10, IMO res. A.654(16), res. A.952(23), ISO A.1116(30)

CREW WAS NOT UPDATED WITH LATEST LSA & FFE RESOLUTIONS. THIS COULD BE AN OBSERVATION BY PSC INSPECTORS AS WELL AS 3rd PARTY AUDITORS NOTING THAT THE COMPANY LACKS PROCEDURES TO CONTROL SUCH MATTERS

ALL LSA & FFE POSTERS ONBOARD NEED TO BE REPLACED AS SOON AS UPDATED ONES ARE RELEASED. CREW NEEDS TO BE AWARE OF NEW SAFETY SIGNS & SYMBOLS AND REGULATIONS/RESOLUTIONS

SAFETY CONCERNS ALL BOTH ONBOARD & ASHORE

Making Prevention A HABIT!
